

Poultry **Africa** 2019

2&3 October 2019 - Kigali, Rwanda

Expo, Leadership Conference and Technical Best Practices Seminars for Sub-Saharan Africa

Big opportunities in the growing African Poultry Market Population will double in Sub Saharan Africa by 2050, with urbanisation moving from current 40%, to 60% in 2050. Feeding Africa's mega cities in 2030 offers significant opportunities with the bigger middle class and the rising incomes shifting the food consumption from vegetable to animal protein – according to Rabobank expert Nan-Dirk Mulder.

After a solid basis of the first edition in 2017, Poultry Africa returns to the 'Land of Thousand Hills' on 2&3 October 2019 with the aim to enhance your network with

- More than 1500 visitors from Sub-Saharan Africa;
- A developing region ready to learn about new products and innovations.
